To who it may concern,

This is to certify that Marina Kamfjord (nee' Mattsson) was employed at Trema during my tenure as Regional Manager Scandinavia for Trema Treasury Management AB in 1997 to 1998. I had the privilege to have met Marina when she was working as a consultant with a previous job and I was really impressed with Marina's work ethics and output. I therefore hired her as my assistant to help me with:

- 1) Various types of projects. Pulling information and utilizing her computer skills (PowerPoint, Excel, SQL etc)
- 2) Customer care
- 3) Support for me and my team in organizing our work and expenses
- 4) I hired over 15 persons during my tenure as head of Scandinavia and I was greatly helped by her organizing that part of my job.

Marina's proficiency in English, knowledge of software and computer skills was a great support to all of us in my team. Marina is naturally inquisitive and does not "give up easily" which means that she will accomplish whatever she has set her mind on. She was never sick and always very punctual. She is also very service oriented and I think that her ability to find solutions and ways to solve tasks is what brings to mind in particular.

I would recommend Marina highly to whomever will have the pleasure to work with her.

Sincerely Yours,

Magnus Caspar

You are most welcome to call me should that be necessary.
